

30 April - 02 May 2019

A BEGINNERS GUIDE TO ANALYZING DATA & DRAFTING MANUSCRIPT

WORKSHOP DESCRIPTION

This workshop is ideal for those who want to design a study, construct and evaluate their research tools, know how to independently verify and analyze data, and subsequently prepare a manuscript. The workshop provides support for academicians, clinicians, and students on the research process, from formulating their research question, to reporting their findings in their own discipline

LEARNING OBJECTIVES

By the end of the workshop, students should be able to:

1. Write the Introduction section
2. Write the Methods section
3. Write and perform the Statistical Analysis section
4. Write the Results section
5. Write the Discussion section
6. Write Conclusions section
7. Submission process
