CONFERENCE OVERVIEW

The field of Neonatal Neurocritical Care has been recently developed to look after high-risk newborn babies born with neurological problems. It will provide these babies with complex assessment, management and investigations needed to provide optimal pertinent care for this population of term and preterm developing children.

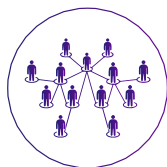

NeoBrain Saudi Arabia is the first conference in the Kingdom on Neonatal Neurocritical Care establishment and implementation, offering hands-on workshops along with world renowned speakers to pave the way for a modern neurocritical fellowship program in KSA .

We will be having international and national renowned speakers who will participate in this important conference, they will share the latest experiences and new practices.
