CAP INSPECTION 2012

The Department of Pathology and Laboratory Medicine recently passed the 14th CAP Inspection conducted on April 9 & 10 2012.

The CAP program in the USA was established on 1976 and our lab has joined the accreditation since 1986.

Our Stem Cell lab was inspected for the first time and received high evaluation by the inspector and was praised for the excellent documentation, policies and procedures. The Immunology section which includes HLA, Flowcy and Serology also received zero deficiency.

The Toxicology section was inspected by Dr. Leo Bekeris on the 2nd day. His conclusion was that there was no deficiency and no recommendation. The Electron Microscopy Unit has also no deficiency and no recommendation and was highly appreciated that our EM lab was found best in the world.

Over-all result of the Inspection was zero deficiency.

Congratulations to all who have dedicated their time and knowledge in passing the CAP Inspection with high remarks.
