

LIFE SUPPORT TRAINING CENTER

AHA INTERNATIONAL TRAINING CENTER ZZ20771

BLS 2020 NURSING

COURSE BACKGROUND

Sudden cardiac arrests are a leading cause of death as almost all mortalities happen in out-of-hospital setting.

Learning early recognition and proper management of this condition will reduce morbidity and mortality.

This course aims to save lives of adults, infants and children subjected to life-threatening emergencies.

COURSE OBJECTIVES

At the end of the course, participants will acquire the knowledge and skills in:

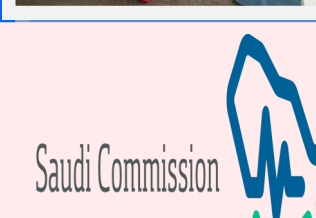

- Initiate the Chain of Survival, Recognizing and treating life-threatening emergencies including cardiac arrests and choking in all age groups.
- Recognizing the warning signs of heart attack and stroke in adults.
- Perform High Quality CPR & Use of AED, Practice Team Resuscitation.
